

# ISEB Foundation in Business Analysis

**Days**            3

---

**Code**            BAFOUND

---

## Overview

This qualification provides a foundation for the range of specialist ISEB modular certificates in the areas of Business Analysis, IS Consultancy and Business Change, plus the higher level ISEB Diploma in Business Analysis. In addition, this certificate can be used to provide a foundation in the subject for specialists in other disciplines, particularly Project Managers and System Developers. The syllabus is based on the BCS publication Business Analysis and this text is recommended for those preparing to take this examination.

## Target Group

This course is designed for those wishing to understand and provide a link between Business and IT, Project Managers, Business or Systems Analysts, Process Improvement Teams, Quality Assurance professionals, System Developers and those who wish to gain a formal industry recognised qualification.

## Prerequisites
